The Republican Musters.

At Beloit, on Friday, and at Burlington, Racine county, on Saturday, the Republicans mustered in great numbers, with banners, music, cannon and hearty cheering, to initiate the campaign of 1860. The numbers and enthusiasm of those in attendance at these gatherings, leave no room to doubt that WISCONSIN is "Wide Awake" and sure for the good cause, beyond all peradventure.

Harvest Home.

In the Southern counties of our State some of the farmers commenced cutting their grain last week. A good many more will be at work during the present week and within a fortnight the great bulk of the crop will be secured. The season has been, thus far, the most propitious one ever known in Wisconsin, and the earth fairly groans under the rich burthen which it bears. In former years, we have had partial failures of hay, wheat, oats, barley, rye, or fruit. But *this* year crops of every kind are good. Our surplus for export will be *enormous*—sufficient to tax, to the utmost, the carrying capacity of our Railroads and Lake fleet. There is every prospect, too, of a large foreign demand and of remunerative prices. With AGRICULTURE prosperous, COMMERCE must thrive. Could we but add MANUFACTURES to the list, the fortune of our State would be made. But for what we have let us be thankful, and cherish the hope of, ere long, securing what we need—HOME MANUFACTURES.

AN OLD LANDMARK GONE.—The Boston papers contain an account of the demolition of the old triangular building at the head of North street, formerly Ann street. This old building, which fronted Dock Square, has long been an object of interest to all visitors at Boston. It had three towers, and is supposed to have been erected in the year 1700. We learn that the parts are to be re-erected in some part of East Cambridge and preserved as a relic.

EGYPT.—Mr. J. R. LEMON, agent of the Stephenson Insurance Company, who has been travelling for some time past in lower Egypt, informs the editor of the Bureau County *Republican*, that the land of corn is wide awake for LINCOLN and HAMLIN. Even in Union county, where Republicanism was almost a myth in 1856, there are now hundreds of LINCOLN men, and in some towns he will beat the Squatterites outright. The Democrats are greatly disheartened, and are about ready to let the ship go down.

A PROCLAMATION FROM GARIBALDI.—GARIBALDI has issued the following decree: "Considering that a free people should abolish every custom which calls to mind the old state of slavery—Article 1. The title of Excellency is abolished without respect of persons. Article 2. Doing homage by kissing hands is prohibited."

It is understood that ladies' hands are not included in this last prohibition.

ANOTHER IMPORTANT ACCESSION.—At a meeting held a few days since at Albion, Orleans county, N. Y., FREDMAND C. DAY, an old line Whig, formerly Sheriff of Orleans county, and who has never acted with the Republican party, made a speech and announced himself hereafter as one of the great Republican army.

THE friends of LINCOLN and HAMLIN have raised a flag pole at Occoquan, Prince William Co., Va.

One of the Verdicts.

A Charlotteville (Va) paper gives the following account of the murder of a slave by one Wash, an overseer of Mr. Eugene Garth, near Gordonsville:

"The negro, after been severely whipped, was tied, hand and foot, by the brutal Wash, and plunged, head downwards, into a hogshead of water, where he was held three quarters of a minute. Upon being taken out he died within three minutes.

"An inquest was held, and the verdict of the jury was, 'died of congestion of the brain.'"

The same paper says:

"We read recently of another case, where a negro was punished in a neighboring country, and died within a minute or two afterwards. The verdict in the latter case was, 'died of a combination of circumstances.'"

Wash had not yet been arrested, but we hope, for the sake of humanity, that the cruel-hearted scoundrel may be brohght to a speedy and condign punishment. Can the South wonder at the odium which attaches to the "institution" in the non-slaveholding States, when the perpetrators of such atrocities are permitted to walk unpunished?—*Baltimore Clipper.*

THE PRINCE OF WALES IN THIS COUNTRY.—In his letter to Minister DALLAS, accepting on behalf of the Prince of Wales the invitation extended to the latter by the corporation of New York, Lord JOHN RUSSELL says:

"When, therefore, the public duties, for the performance of which the Prince undertakes the voyage across the Atlantic to Her Majesty's North American Colonies, shall be concluded, both the consideration above referred to and the natural desire on the part of the Prince to visit some of the institutions and some of the most prominent objects of interest in the United States, will prompt His Royal Highness, on his return from the Upper Province of Canada, to direct his route through a portion of that great country; and that route will include a visit to the important city of New York. The time allowed for this journey will, however, under all circumstances, be necessarily very limited, and it will be consequently out of the power of His Royal Highness to make a prolonged stay.

His Royal Highness will, on leaving the British soil, lay aside all royal state, and exchange his title, as he has done on former journeys to foreign countries, for that of Lord Renfrew. While thus dispensing with any ceremony which might be convenient to the communities which he hopes to visit, he trusts to be enabled, as a private gentleman, to employ a small amount of time at his disposal, in the study of the most interesting objects in the United States, and of the ordinary life of the American people."

THE ARMY REGISTER for this year shows how the officers are paid. The "salary" of Gen. Scott is $3,240, but his "allowance" sums up to $15,539; Gen Harney starts with $1,240, and draws $5,498; Gen Twiggs' total was $8,459, and Gen Wool's $5,806.—The extra pay comes in allowance of rations, horse transportation, etc., according to the officer's rank and duty.

HARVEST HANDS.—All the unemployed laborers in the city are turning out, to get employment as harvest hands. The price paid is about $2 a day, though some hire cheaper. The wheat is so heavy, and there is so much of it, that a large amount of help is wanted; the work will be hard, and good prices will be paid.—*Mad. Argus & Dem., July 13th.*

The Trot at Philadelphia

The following is the account in the N. Y. *Times* of the last trot at Philadelphia between *Patchen* and *Flora*, which was broken up by mob violence to prevent the horse from wining:

First Heat—*Patchen* had the track, and after five attempts, in which the horses were called back by the trumpet, and several baulks on the course, during which both horses looked in the finest condition, they got away, *Patchen* having a slight advantage, which he increased by a couple of lengths on fairly entering the turn, opening the space another length on nearing the 1-4 pole which he passed 6 lengths ahead of *Flora*, in 35 1-2 seconds, who had broke up just previously. The half mile was done in 1 minute 10 seconds. *Patchen* being seven lengths in advance, just at the gate, on the last of the back stretch, where he got off his feet for a skip which lost him a length. Six lengths intervened as they whirled round the three quarter turn, the pole being passed in 1 minute and 45 seconds, and they swung into the straight run amidst the utmost excitement of the excited crowd. *Flora's* loved music—that is the screams and yells—added wings to her feet, or had a sedative effect on *Patchen* and his driver; for he only passed the score leading by a couple of lengths, in 2 minutes, 22 seconds.

Patchen opened out in going round the turn on the second mile, it being evident that he could outfoot the mare at any time—barring accidents—and had the race in hand; he passed the quarter pole in 2 minutes, 58 1-2 seconds, increasing his lead to four lengths, which was slightly reduced by *Flora* on the far side amidst the utmost enthusiasm of her friends, whose hopes were raised as she crept up, and whose yells were unavailing in the distance to break up the noble horse, who opened out at will as he passed the half-mile pole in 3 min. 35 sec. four lengths ahead; which he steadily increased to six in the upper turn, and seven as he swung into the home stretch ahead of *Flora*. From this point he kept a steady gate, with the race well in hand; never pushing *Patchen* to his full speed, and thus escaped a break, although it was almost a miracle that the horse could withstand the rushing on the track, waving of caps and yells of the *Flora* crowd, without breaking—as it was, he came in a winner of the heat—holding up, in 4 minutes 51 1 2 seconds. the last half mile being done in 1 minute 16 1 2 seconds.

Second Heat—At the third attempt *Flora* came over the score a length ahead, just as *Patchen* got off his feet at the score some one in the excited crowd cried "Go," but the judges gave the order for the trumpet to recall the horses. McMann hesitated at the turn. Tallman did the same at about a dozen lenghts in his rear; the crowd shouted and yelled to go on, and some persons in the judges' and reporters' stands waved their hats to McMann to go round. In vain the trumpet sounded the recall, for the louder roared the turbulent elements on the track in front of the judges' stand, a majority of whom looked demons of rum and rowdyism as they shook their fists with rage at the judges above them. *Flora* at length came up the home stretch—the trumpet sounded for McMann to hold up; the crowd rushed like frantic devils up the track, telling McMann to go on, and McDonald—McMann to go in—and McMann did go on, and round the second mile, while *Patchen* was hauled off by Tallman. On *Flora* coming in, McDonald insisted upon weighing McMann in opposition to the judges' decision, who unanimously decided it was no heat. This righteous decision was received with execrations by the roughs, &c.

Second Heat—After one or two false starts, amidst yells and cheers from the crowds on the track, which were ominous of further trouble, the start was effected, *Patchen* leading by a head and shoulders; this was taken from him, and the track also at the turn, when *Flora* had only a length clear—but short cuts sometimes lead to victory. At the quarter—which was passed in 37 1 2 seconds—she only headed him by a length, and he lapped her at the half mile pole in 1 minute 13 1-2 seconds. He so continued past the gate, and half way round the upper turn he was neck and neck, when he broke up badly, and before he recovered *Flora* had passed the three-quarter pole four lengths in advance, in 1 minute 50 1 2 seconds. In swinging into the home stretch, he reduced *Flora's* lead by a couple of lengths, and had just collared her at the gate when the crowd rushed down the track, hooting, and screaming, and waving their caps in *Patchen's* face, causing him to break up badly, and fall back in the rear of *Flora*, who passed the score amidst the cheers of the crowd, in two minutes and twenty-eight seconds. *Patchen* having been brought down to a trot, when, after *Flora*—who had made a slight break in going around the turn—and collared her as they passed the score, in three minutes and six seconds. On the back stretch he got up again and lost three lengths. At the half-mile pole he had reduced it to one length, passing it in three minutes and forty-three seconds. Half way round the upper turn he got up again, and lost four times his length—the three-quarter pole being made in four minutes and twenty and a half seconds.

In entering the straight run he had slightly reduced the gap, which was almost wiped out at the gate, with every prospect of his getting the heat and race, when the crowd rushed frantically down the track; hats and caps were not only waved in front of *Patchen*, but caps were thrown in his face and at Tallman, and it is said that bludgeons were also thrown at both man and horse. The consequence was that the horse reared almost on its haunches, and swerved to the inside of the track in the rear of *Flora*, who came over the score three lengths ahead in 5 minutes 1 1 2 seconds. An appeal was made to the judges to give the heat to *Patchen*; but such a decision, might have involved their safety, and, in obedience to the outside pressure the heat was given to *Flora*.

Some time passed admist the utmost excitement. The few respectable persons present, and the reporters and members of the Press, unanimously condemned the whole proceedings as one of the greatest outrages they had ever witnessed, and gave it as their opinion that it would be the last trot or race which would ever take place on the Suffolk Park, and that the Point Breeze track was the only respectable course on which anything of the kind ought to be patronized by the Philadelphians hereafter.

—The owner of *Patchen*, feeling it unsafe to run his horse for the deciding heat, withdrew him, and the trot and the bets along with it were given in favor of *Flora*. While horses are running for the gate money, instead of *bona fide* stake, betting is a lottery.

THEFT, ARREST AND SUICIDE AT MILFORD, N. H.—Samuel Scripture was this forenoon detected in stealing from the ticket-master's drawer, at the Wilton Railroad depot in Milford, N. H. When subsequently arrested and examined, a pocket-book, containing a marked three dollar bill, taken at this time, was found upon him.

He confessed that he had been taking money for a year or more (having keys to fit the office door and drawer,) to the amount, as near as he could judge, of four hundred dollars. His wife, after hearing the news, she was soon missing, and was traced to the river, where her bonnet was found upon the bank. Search was made, and the body recovered in about twenty minutes from the time was first missed, but life was extinct. During the excitement consequent upon the discovery of the body, Scripture escaped, and was still at large when the train left for Boston at 11:10 A. M. Parties are in pursuit, and he will no doubt soon be recaptured.—*Boston Journal, July* 10.

A NEW WAY TO PAY OLD DEBTS.—A Haverhill man who trades in flour, grain, &c., trusted a Hibernian neighbor with two barrels of flour, sold for cash price, and to be paid for in a few days at the outside. The account ran along six months, and as the flour was by that time consumed, the debtor seemed to have lost his interest in the matter. But the creditor still thought of it, and hatched up a novel expedient to get his pay. The derelict had no more property than what the law would protect him in holding, he he had one hog only, but that was a very fine one, weighing about five hundred pounds. The creditor bought a store pig out of a drove for two dollars, and got a friend to sell it to the debtor at his own price. This bargain was too good for him to throw away, and he bit at the pork bait. Flour, Grain & Co. then attached the large hog, took him away, sold it, and realized enough to cover his demand and the costs, and to return a "V" to the debtor.—*Boston Herald.*

Prince Jerome Bonaparte—His American Wife and Son.

The Parana brings the news of the death of the Prince Jerome Bonaparte, the last of that family which the genius of Napoleon raised from obscurity to place and power.—Bulletins regarding his health have filled a line in the steamer despatches for several weeks—and, indeed, at intervals for years he has suffered such repeated and violent attacks of disease that his death at any time would not have been entirely unexpected.

His death creates no vacuum in public affairs, for his life has never been the hinge of great events—but as the relative of the reigning French Emperor, his death will receive some formal recognition on the continent, and in this country, as the husband of an American wife, and the parent of American children, it will not pass unnoticed.

Jerome Bonaparte was fifteen years younger than Napoleon. He was educated in part by Madame Campan, and entered the navy when his elder brother assumed the Consulship. It was while in the navy and when cruising in American waters, that he first met Miss Elizabeth Patterson, a young lady noted for her beauty, in a city that is famous for its beautiful women. They were married on Christmas eve, in the year 1803. In 1805, they crossed the Atlantic, but did not enter France, for orders had been given not to admit the lady deemed plebian by the "plebian Emperor." Soon after arriving in Europe their first child, the present Mr. Jerome Bonaparte, of Baltimore, was born.

A little later still, under the stress of Napoleon's desire that his relatives should marry into royal families, their marriage contract was annulled, and in 1807 Jerome was married to the Princess Frederica of Wurtemberg, who died about twenty-five years ago. The Princess Mathilde, the wife of Prince Demidoff, of Russia, and Prince Napoleon, husband of the Princess Clothilde of Sardinia, are the surviving children.

Jerome became, after his second marriage, successively Admiral of the French navy, Prince of the Empire, King of Westphalia, and an exile. He had the honor of leading the French charge in the battle of Waterloo, and then again became a fugitive.

He resided in Austria and Italy, under the title of Count de Montfort (given him by the King of Wurtemburg,) until the *coup d' etat* elevated the Third Napoleon to a Royal seat, when he again frequented the Tuileries. During the Presidency he had place and privileges; and, under the empire, until the birth of the Prince Imperial, he was heir presumptive to the crown.

His first wife still resides in Baltimore, and through a life that is now long, has remained faithful to her first and only marriage vows, whose annulment she would never acknowledge, while her faithless and weak husband, whether in the Westphalian Court or the Palais Royal, has forgotten both his first and last, and, dying, bears no nobler title than the last of the family of the Corsican.—*The World.*

Cannibalism in the Selkirk Settlement—Six People Murdered and Eaten.

From the Red River Nor' Wester.

Detailed accounts of a case of cannibalism have lately been received. The victims were six in number—a Salteaux indian and his wife and four children—and the cannibal one of the youngest members of the family!

Incredible as it may appear, the tale has been confirmed by too many to leave any doubt as to its correctness. The most reliable version is as follows:

About the beginning of March, a Salteaux named Ke-wa-kie-sick, who was wintering near Lac de Roseaux, went a short distance south of Dawson's track, to hunt moose. On his way he noticed in the snow the trail of Indians who appeared to have been catching rabbits; and while following along to visit them, he was startled by finding an Indian woman lying dead near the track. Her remains were so horrible mutilated as to lead him at once to suspect cannibalism. To all appearances she had been sitting snaring rabbits, when she was killed by being shot through the back of the head. The skin of her arms had been torn off by the murderer to be devoured. A short distance further on, the hunter saw a boy named Sha-way-gonish, sitting by a little fire. He was about ten or twelve years of age, and had been cooking something which had the appearance of human flesh. After a brief conversation, the hunter became convinced that the young wretch before him was the cannibal, and would at once have tomahawked him, but forbode, lest in that event he himself should be accused of the cannibalism.

Leaving the boy at the fire, therefore, Ke-we-kie-sick proceeded to a tent close by, and here a still more frightful scene met his gaze. Inside lay the bodies of an elderly Indian and four of his children, all of whom had been murdered! The father had evidently been shot while sitting in the tent, and it is supposed that he must have been the first victim. Portions of some of the bodies were cut away, and from their decayed appearance the hunter concluded that the murders had been perpetrated several days previously, and in the meantime the boy had been living on the flesh!

That a boy so young should thus be able to butcher so many people, can only be accounted for by the superstitious dread with which the Indians regard a Windigoo, or man eater.

In the present case the murderer could not have been urged to the commission of his crime by starvation. When the atrocity became noised among the tribes, She-way-gonish was hunted from place to place, and at length, being found at the Lake of the Woods, he was chased into the woods and shot by his uncle.

ARTIFICIAL FISH BREEDING.—Mr. E. C. Kellogg goes out in the Adriatic on Saturday, for France, says the Hartford *Times*, to secure all the scientific and practical information in regard to artificial fish-breeding it is possible to obtain by visiting establishments for that purpose in France, and also, probably, in Switzerland and Bavaria. If successful in obtaining valuable information on this subject, Mr. Kellogg will, on his return, be joined by Col. Colt, in the work of furnishing a regular establishment here or in East Hartford, for the propagation of fish—beginning with trout.

Mr. Kellogg has already succeeded in producing, by artificial means, about 1,000 trout, which are now doing well. A small stream in East Hartford has been used for this purpose. Messrs. Ives and Kellogg are building in another quarter of East Hartford, some dams for ponds, which will probably be devoted to this purpose, if the enterprise once fairly starts. Mr. Kellogg means to return in season to begin operations the coming fall.

ATTEMPTED SUICIDE.—Mrs. Mary Harein, living at 232 West 17th street, attempted to commit suicide last evening, by swallowing a dose of oxolic acid. The deceased, it appeared, had been for some time in a despondent state of mind, caused by domestic difficulties. It is thought that the unfortunate lady will recover.—*N. Y. Com. Advertiser.*

This is a very remarkable case. First, there was only an attempt at suicide, but the attempt must have been successful for the woman is spoken of as "the deceased." But more wonderful than all, there is a probable case of restoring the dead to life, as "it is thought the unfortunate (deceased) lady will recover."

We knew the venerable *Commercial* had become one of the best newspapers in New York, but we did not suppose it had joined the "sensation" class!—*Rochester American.*

Washington Matters.

WASHINGTON, July 14—3 P. M.

The Tribune's Washington correspondent intimates that some of the captured negroes have been carried off from Key West to the plantations in Alabama and Mississippi.

Suspicious vessels have been prowling about Key West, and the alleged mortality among the captured Africans is said to be only a sham to cover a nefarious design.

The Tribune's correspondent says that Attorney General Place approved of the case of the Ontario County Court House for Federal offices and a Post Office.

Another despatch says it is understood that a decision favorable to Russell, Major & Russell, in the matter of transportation to Utah, will be made in a few days.

The Weather in Arkansas.

VAN BUREN, Ark., July 14—3 P. M.

The weather for the past few days has been intensely hot in this vicinity. Yesterday the thermometer stood at 108° in the shade. The air was so hot as to almost suffocate persons.

The river continues very low, being fordable at nearly every point.

There is a prospect of rain this evening, which is very much needed.

Thirty-two guns were fired this evening in honor of the completion of the telegraph line to this city.

Democratic Meeting.

NEWPORT, Ky., July 14—3 P. M.

A large Democratic meeting was held here last night, speeches were made by Gen. Flourney, of Ark., and Maj. Ira Root. Resolutions endorsing Douglas and Johnson were adopted.

Election for City Treasurer.

The special election for City Treasurer is to be held on Wednesday next, the 18th instant. We publish this morning a call, most numerously and respectably signed, inviting JOHN H TESCH to become a candidate for the office. Mr. TESCH would make an honest and capable Treasurer, and, under the peculiar circumstances of the case, should receive the support of every friend of *Fair Play*.

A FREE RIDE TO OUR GRAIN DEALERS AND COMMISSION MERCHANTS.—Mr. JERVIS has tendered the grain dealers and commission merchants of this city, an invitation to take a trip over the Milwaukee and Mississippi Railroad to Prairie du Chien and back, any time between now and the 1st of August, "free of charge." At a special meeting of the Chamber of Commerce on Saturday evening, a resolution was adopted accepting the invitation and thanking Mr. JERVIS for the offer. A resolution was also offered to appoint a committee to look after the grain dealers on their return and see that they "switch off" properly at Janesville, and are not carried to Chicago. This, however, was not acted upon.

An invitation from the managers of the Milwaukee & Minnesota Rail Road, offering to issue excursion tickets to St. Paul and back for 25 or more members of the Chamber of Commerce at $10 25 each, including a band of music free, was accepted in a like manner, and a vote of thanks returned to the officers of the road.

No definite time was agreed upon for going, but it is understood that a large number of the members will go on the 10:45 train to Prairie du Chien this morning. Those who prefer the trip through to St. Paul by the other route, on the terms proposed, are requested to report themselves to the committee, consisting of S. T. HOOKER, L. H. KELLOGG and O. ALEXANDER.

That there may be no misunderstanding, we will here state—that the invitation from the Mississippi Road is confined to grain dealers and commission merchants, that from the other road to members of the Chamber of Commerce, irrespective of occupations.

"A JAPANESE FIX."—The following prescription, by the local of the Oswego *Commercial Times*, is said to be taken from a Japanese medical work, brought to this country by TOMMY, and is vouched for as "good in the worst cases of sudden depression of the calipeus lindix, attended with a sensation of goneness in the region of the cateroid canibus."

TESTING THE ST. CHARLES.—We have given Captain Upman a trial of his new hotel—the St. Charles, Milwaukee—and we can cheerfully certify that it is all he or his friends promised or predicted. The building, though nearly new, has been thoroughly cleansed and painted. The parlors are newly carpeted, handsomely and tastefully furnished, and the sleeping apartments have experienced the same renovating and purifying influences. At the table the guests enjoy all the good things available, and consume them with a surrounding of good order, quiet and independence that rarely fails to satisfy.

The St. Charles is a good house.—*Manitowoc Herald.*

WEST SIDE WIDE-AWAKE CLUB.—It has been suggested by several that a Wide-Awake Club School be organized on the West side of the river, to be known as the West Side Wide-Awake Club. The project strikes us favorably. A club of four or five hundred can be got together in a few weeks. There are commodious rooms which can be secured at a low figure in the *Free Democrat* building. The *Free Democrat* is requested to invite all who are in favor of forming the Wide-Awake Club, to meet at that office this evening.

CARD OF THANKS.—In a note to a friend here, Prof. STEINER, the Æronaut, apologizes for omitting in the haste of leaving, to return his thanks to the gentlemen of the Fourth of July Committee, the Chamber of Commerce, J. L. DAVIS, O. ALEXANDER, WM. STRICKLAND and JOHN NAZRO for their kind services in his behalf, and especially to his friend, S. D. BALDWIN, for unremitting attentions, and many acts of kindness during the preparations for his ascension.

WIDE AWAKE UNIFORMS.—We would call attention to the advertisement of Messrs. J. A. SMITH & Co., of Chicago, who are largely engaged in getting up and supplying the "Wide Awake" Clubs through the North Western States with these uniforms.

They were the originators of the present style of uniform, and are supplying a good article at the low price of $1,75 per sett, all complete.

AFLOAT.—The old building which has been known as the "Home" Saloon for so many years, near Spring Street Bridge, was put on board of an immense scow in the river, on Saturday, to be removed to some more congenial location than that which it has lately occupied. On its former site there will soon be two elegant brick stores, which JOHN PLANKINTON, of the firm of LAYTON & PLANKINTON, is about to erect.

RUN OVER.—A cow was run over and killed by the early train on the Milwaukee & Chicago Road, just this side of the county line, Saturday morning. No damage done to the train.

City Treasurer—A Call upon Mr. John H. Tesch.

Whereas, the Supreme Court has, on account of the peculiar working of a certain section of an amendment to the City Charter, decided that the election for City Treasurer, held in April last, was void, and

Whereas, in consequence of such decision the expressed will of the people has been defeated, and it is deemed just that the person receiving a majority of the votes cast should be entitled to occupy such office, and

Whereas, JOHN H. TESCH did receive a decisive majority of the votes cast at the election above referred to and is morally if not legally entitled to the office;

Therefore, we, the undersigned, irrespective of party and opposed to any other nomination being made, call on JOHN H. TESCH to allow his name again to be used, as a candidate for the office of City Treasurer, at the special election ordered to be held on the 18th inst., and pledge him our support.

The Democracy "Sectionalized."

The Charleston *Mercury*, certainly one of the ablest and most outspoken of Southern Democratic journals, is intensely disgusted with the claim put forth by each wing of the Democratic party to the title of "*National*." The opinions of the *Mercury* on this point are expressed in the following forcible terms:

> The effort at Baltimore to reconstruct the Democratic Party from its secession elements most prove abortive. Not a delegate from a Northern State in the Convention of the Seceders, represented the opinions or policy of a single Northern State. They were mere fragments, indicative of good intentions, but powerless to carry them into effect in a single Northern State.—Massachusetts had the largest body of Seceders in the Seceding Convention; but Massachusetts is Republican by at least twenty thousand votes. *The truth is, the Seceding Convention at Baltimore was a Southern Sectional Convention.* It represented the rights of the South, and was controlled by Southern power.—With the exception of Oregon and California, no one expects a support of its nominees for the Presidency and Vice Presidency of the United States beyond the Southern States. Yet it called itself "the National Democratic Party." It affected to be the National Democratic Party. The affectation of the disrupted Convention, clinging to the name of the National Democratic Party, was equally absurd. As a National Party it had ceased to exist with the secession of the Southern States. Both Conventions became sectional. The one represented the North—the other, the South. The one aimed at a sectional domination over the South—the other organized to save the South from this sectional domination—looking clearly to the alternative of independence. There was not a particle of Nationality in either Convention. Yet both claimed to be "National;" and the politics of the South are being driven along by the shallow hypocrisy of these misnomers, instead of being governed by the true state of things.

"*There was not a particle of Nationality in either Convention,*" says the *Mercury*, and of course there is none in their respective tickets and platforms. DOUGLAS heads the Sectional Democracy North and BRECKINRIDGE the Sectional Democracy South. The success of either faction would be a misfortune to the whole country. Happily, that misfortune is not likely to occur. The signs of the times all point unerringly to a Republican victory in November. The sectionalized Democracy will go down before the serried front and vigorous charge of the National Republican Party.

Douglas in the North.

The *News* in order to sustain its assertion that Mr. DOUGLAS is much stronger in the North-West than Mr. LINCOLN, says:

> He defeated Mr. Lincoln and his backer, the administration, in Illinois in 1858, and Illinois was then a republican State. If he could carry one republican State against Lincoln then, no good reason can be assigned why he will not carry that and other republican States now.

So far from carrying Illinois against Mr. LINCOLN, in 1858, Mr. DOUGLAS was *beaten* by Mr. LINCOLN, on the popular vote.—The Republican legislative ticket had a majority of *forty-five hundred* over the DOUGLAS ticket, while on State Officers the Republican majority did not exceed three thousand. But though beaten on the popular vote, Mr. DOUGLAS, owing to the partisan apportionment of the State, was enabled to carry a small majority in the Legislature and thus secured his return to the Senate.

The Issue Frankly Stated.

> It is pretty well understood now that the contest is between Lincoln and Lane, both Breckinridge and Douglas being out of the question. Douglas' friends don't want Lane to be President, any more than Lane's friends wish to have Douglas.—But Douglas is confident of carrying several States, and if he does, he will make Lane President.—*Journal of Commerce Correspondence.*

The *Journal of Commerce* is excellent Democratic authority and no doubt truly states the plan of the campaign. It is well, therefore, for Democrats to consider whether they will aid this plot to elect LANE by the Senate. A certain way to defeat the scheme is to vote for LINCOLN and HAMLIN.

TURNING A SHORT CORNER.—A Douglas ratification meeting was held at LaGrange, Ohio, a few days since, and Mr. E. G. JOHNSON was Chairman of the Committee on resolutions. The following was one of the resolves:

> *Resolved*, That Marshal Johnson and his confederate vagabonds, purchased with official pap, and steeped in the vilest corruption, are fit representatives of the most un-American, un-Democratic and infamous Administration that ever existed.

Whereupon Marshal JOHNSON publishes the following from the author of the resolutions:

> LAGRANGE, Lorain Co., Ohio, Feb. 29, 1860.
>
> DEAR SIR:—I am waiting *patiently* to hear from you with respect to the Census matter. If you have an appointment yet to make *please remember me!* Let me hear from you. Yours with respect,
>
> E. G. JOHNSON.
>
> Hon. M. Johnson, U. S. Marshal, N. D. of Ohio.

A little "pap," it appears, would have induced Mr. E. G. JOHNSON to make one of these "confederate vagabonds."

DOUGLAS DISUNIONISTS.—The Southern *Confederacy*, the notorious black-mail paper, published at Atlanta, Georgia, is one of the few Southern papers that support DOUGLAS. In a late issue, the *Confederacy* proposes the following remedy for the election of LINCOLN:

> But if the worst does come—if Lincoln is elected, *let us with one heart and mind forget the past*, AND GO OUT OF THE UNION TOGETHER. If we permit the blacks to come into power, and allow them to govern us, they will, in four short years, inflict a mortal sting upon slavery, from which it will never recover. We must not permit it.

"The blacks," thank you, will not wait for your "permission."

AN ASSUMPTION.—The Baltimore *Patriot* says of the recent declaration of Senator WIGFALL:—"The Senator thinks there are only six men in the South who would go into Mr. LINCOLN'S Cabinet, to-wit: H. WINTER DAVIS, REVERDY JOHNSON, JOHN MINOR BOTTS, SAM. HOUSTON, PIERCE SOULE and JOHN BELL. There is one more; and as the Senator is so modest as not to name him, we'll supply the hiatus. *It is the noble Senator himself!*"

COMING ROUND.—The *News* editor, who was for VAN BUREN and Free Soil in 1848, seems to be coming round again upon the same track, and is publishing the communications of "A Republican from Principle," complaining that the Republicans are not sufficiently *ultra* on the Slavery question. It is because the political soundness of the *News* is greatly distanced by the Democracy, that BERIAH BROWN is going to start a Douglas paper in this city, within a few days.

THE NASHVILLE (Tenn.) *Union* announces that Gen. PILLOW has abandoned DOUGLAS and gives a cordial support to BRECKINRIDGE and LANE.

Lawrence University.

Correspondence of the Sentinel.

WAUKESHA, Wis., July 5, 1860.

MR. EDITOR:—Having paid a visit to the city of Appleton, to attend the Commencement exercises of the Lawrence University, which occurred during the last week in June, I take the liberty to communicate a few things to the public through the medium of your paper.

Lawrence University was founded several years since by the liberal-minded and benevolent Hon. A. A. LAWRENCE, of Boston, Massachusetts, from whom it takes its name. Mr. LAWRENCE, prompted by a noble liberality, made a proposition to the M. E. Church of this State to set apart $10,000 to found a College of high grade, on condition that the said denomination would contribute the like sum, and devote to the enterprise her fostering care and energetic supervision. This proposition was promptly met, and hence arose the Lawrence University. By repeated donations from the founder and other benevolent gentlemen in the East, and the friends in our own State, it has continued to rise until it occupies a leading position among the other institutions in the West. The University includes a male college and a female collegiate institute, both designed to take the highest grade. Both departments, to which are added also a preparatory department, have steadily increased in patronage, until, just previous to the commencement of the present financial pressure, the number of students exceeded three hundred. And even now, notwithstanding this discouragement the pressure has thrown over all departments of enterprise, the decrease in the number of students has been comparatively quite limited.

The University has been very fortunate in her Board of Instructors. The Faculty has been composed of men of ripe scholarship and rare attainments, as instructors. Rev. E. COOKE, D. D., her first President, has won a high reputation, not only in the precincts of the University, but throughout the entire State. Prof. R. Z MASON, A. M., who has filled, for several years, the chair of Natural Sciences, and who has been the Acting President during the past year, is a man of very superior attainments. His marked ability in the chair of Natural Sciences had won high commendation for several years, but there is now added the reputation of being a most able and successful Acting President. The other members of the Faculty, Profs. KNOX, JONES and PLATSCHKE, have abundantly shown themselves the men for their several positions. The Preceptress, Miss HASTINGS, has also sustained her position with very general acceptability. There is evidently a determination on the part of the Faculty and Teachers, from the College Proper down to the Preparatory Department, to secure thorough scholarship.

After attending the examinations for several years, I may venture the opinion, that Lawrence University does not propose to graduate a student in her halls, whose scholarship shall be a discredit to her, when compared with those graduated at other institutions, either East or West. She has just graduated her fourth class, consisting of fifteen, eight gentlemen and seven ladies—all of whom, I judge, will be a credit to her.

The Preparatory Department held their exhibition on the Friday evening preceding Commencement week, and I am informed that it was well sustained.

On Sabbath morning the Missionary Society was addressed by Rev. J. DEMPSTER, D. D., of the Garrett Biblical Institute, of Evanston, Ill.; and in the afternoon the Baccalaureate Discourse was delivered by Acting-President MASON. I regret that I was not able to hear either of these gentlemen. The verdict of those who enjoyed the pleasure is, that they were both worthy of the men and the occasion. Dr. DEMPSTER has long enjoyed the reputation of being one of the best thinkers in the West, and Acting-President MASON has a mind of rare endowment for such a task. On Monday evening Rev. W. McKAIG, pastor of the Jefferson Street Church, Chicago, Ill., addressed the Philolathean Society. His subject was "The value of philosophy in procuring an education."—Unfortunately, I was also deprived of hearing Mr. McKAIG. I heard only one opinion expressed concerning it—it was placed among the first in rank of the many excellent addresses that have graced the several commencements of the University.

The Female Collegiate Department held their exhibition in the Chapel, on Thursday afternoon. The young ladies acquitted themselves to the general satisfaction of the vast audience in attendance. The topics were well selected and appropriately assigned. The style was chaste, and generally the sentiment vigorous. The reading and other exercises were conducted with becoming modesty, and in a tone sufficiently forcible to enable the audience to hear distinctly.

The Phœnix Society was addressed on Tuesday evening by J. B. D. COGSWELL, Esq., of Milwaukee. Subject—"Voluntary Associations as illustrative of English Literature and Biblical History."

On Wednesday the young gentlemen of the graduating class, entertained a vast audience in the chapel for nearly two hours. The orations were well pronounced, in the main, and evinced considerable maturity of thought—ripeness is, perhaps, the best word to characterize several of the productions. After the conferring of degrees, a large company repaired to the Academy Square, where dinner had been provided under a beautiful awning. Toasts followed the dinner, and were very happily responded to by the several speakers who were called out. Of the several speeches, no one was more happy than that of His Excellency Gov. RANDALL, the President of the Board of Trustees.

This feast of reason and flow of soul over, the Joint Board of Trustees and visitors addressed themselves to the examination of the financial condition and other general interests of the University. It was found that the University has College Buildings and grounds valued at fifty thousand dollars, and other property worth fifty thousand more.

Through the kind liberality of friends at the East, it has been provided with a Library fund of $10,000. Then the citizens of Appleton have endowed the chair of Civil Engineering, and a scholarship fund had previously been provided, which may be set down at $10,000 more. An effort is now being made to increase the endowment by the addition of $50,000, which will provide for the endowment of the President's chair, the chair of Physical Science, the chair of Ancient and Modern Languages, and the chair of Hebrew. Already the present effort has prospectively secured nearly one half of the desired amount, and its ultimate success is confidently expected. The endowment thus carried up to about one hundred thousand dollars, with its present College Buildings, and one other, which it is proposed to erect, would place Lawrence University in an easy and efficient position.

The Joint Board re-elected Rev. E COOKE, D D., to the Presidency, and Rev. Prof. R. G. MASON, A. M., to the Vice-Presidency.—It is expected that Dr. COOKE will devote so much of his time as may be found necessary to complete the endowment. Prof. MASON will take charge of the College meantime, and the friends of the University are expecting a successful year under his supervision.

But I need add no more. I bring home with me a conviction that this noble University is destined to work out the most sanguine expectations of its friends.

W. G. MILLER.

REPUBLICAN PAPER AT GREEN BAY.—The *Bay City Press* is the name of the new paper just started at Green Bay. It is a very neat-looking sheet, Republican in politics, and edited with tact and ability. Messrs. JONES & LAW, are the publishers, and Mr. B. I. BROWN, a clever young lawyer, the editor in charge.

The Thermometer of Civilization.

It is claimed by the negro Slavery extensionists that the chattelizing of Africans elevates the white people and enhances their civilization. The theory is that by relieving them from the ruder descriptions of labor, this Slavery gives them leisure and disposition to cultivate their minds and indulge in the loftier pursuits of poetry and philosophy. If this be true to any extent, we are able to show that it is certainly very far from being true of the average white men in the Slave States. The use of the Post Office settles this question. Correspondence increases in very nearly exact proportions to intellectual development, so that a better thermometer of civilization could not be desired than the revenue of the Post Office. Very fortunately for those who desire to see the truth of a question on which the pending Presidential election is to turn, we have before us (Senate Ex. Doc. No. 13,) the Postmaster-General's report of the receipts and expenses of the department for the last nineteen years, from 1841 to 1859 inclusive, and have taken pains to foot up the results, and arrange fifteen Free States against fifteen Slave States. All but one of the latter (Texas) co-existed through the whole period. Texas made its appearance in 1846:

Total	$27,519,620 65	$50,514,416 18

Two important facts are obvious from this synopsis. First, while the free population of the slave States has probably averaged very nearly half as much as that of the Free States, its use of the Post Office is only two-fifths as much. That is to say, were the white population of the Slave States, on the average, as those of the Free States, the Post Office during the last nineteen years, would have received *six millions and a half dollars* more, to say nothing of what it would have saved by the better roads locomotive facilities of a more civilized country. Second, while the Post Office has realized a net profit of $7,757,218 in its business in the aforesaid Free States, it has made a net loss of $22,994,795 in the Slave States! The document we have referred to abundantly shows that this bad business in the Slave States is not growing better. Is a system which thus retards civilization worth extending at such cost? Either common sense or Wall street sense will pay it!—*New York Tribune.*

Three Years' Record of Democratic Rule.

The report of the Covode Investigating Committee has laid bare the most stupendous and systematic series of corruptions, frauds and false pretenses, ever brought to light in the history of any modern government. The ears of every true American must tingle at the recital of these crimes committed by the very head of the nation—a head which was elevated to power by corruption as base as by that which he had attempted to force the doctrine that Slavery is national and freedom sectional, on an unwilling people. James Buchanan gained his office by fraud, perjury and corruption, and he has shown his devotion to the means employed to elect him by a constant use of the same appliances to carry forward his measures. How glaring the old man's hypocrisy and villainy stand out, when we think of his Forte DeQuesne letter, wherein he "assumes the privilege of declining years" to preach against the employment of corrupt means to obtain office.

But this is not to be charged on James Buchanan alone. It is the doings of the "Democratic" party. It was the leaders of the party who forged six thousand naturalization papers to elect Buchanan. Every "Democratic" paper (unless it be a few Anti-Lecompton heretics) by its silence gives its sanction to the corruption. The whole South, with all their boasted chivalry and honor, sanction the villainy and grasp eagerly at the rewards they reap in consequence. What have the various committees resulted in? They have proved:

The use of $30,000 or $40,000 to carry the Lecompton and English bills through Congress.

The stealing of that money from the United States Treasury, under the pretenses of paying for printing.

The offer of $80,000 of the same kind of stealings, to Col. John W. Forney, if he would support the Buchanan Administration.

The most stupendous frauds in "Live Oak" contracts for the navy, for the purpose of enriching political favorites and corrupting elections.

The fraudulent appointment of political favorites to the office of Coal Agents, which the House has declared void.

That the Utah army was raised to force Slavery into Kansas against the wishes of the people.

The existence of corrupt combinations of federal office holders to carry local elections.

The use of public money to corrupt the ballot box and to defeat the will of the people; especially in the Philadelphia Custom House and Navy Yard; that Mr. Baker, the Collector, and his brother, were directly guilty of thus using the public money; the entire intimacy existing between Buchanan and the Bakers, and his knowledge of and complicity with their corruptions.

The donation of $10,000 to the *Pennsylvanian* and a like sum to the *Evening Argus* from the stealings of the printing fund.

The paying of large sums of money to men, who performed no duties, because they were political favorites.

That $50,000 per annum was given to political favorites under the pretense of "Executive Binding," and this amount was in excess of the real cost of the work done.

The forging of six thousand naturalization papers to carry the election in Pennsylvania in 1856, and the franking of them to various parties by "Democratic" members of Congress.

The expending of large sums of money to organize a third party (like the Bell and Everett) to defeat Fremont.

Although these are only a portion of the villainies proved against the present "Democratic" party, it should be sufficient to arouse the nation as one man against the party vampires who only seek office for the sake of plunder. Remember ☞ IT IS THE "DEMOCRATIC" PARTY, AS A PARTY THAT SUSTAINS, UPHOLDS, AND SANCTIONS ALL THESE CORRUPTIONS!

Capital Owning Labor.

During a speech made by HERSCHELL V. JOHNSON, (now candidate for Vice President,) in Philadelphia, on the 17th of September, 1856, he defended the system of slavery in this wise:

"We believe capital should own labor; is there any doubt that there must be a laboring class everywhere? In all countries and under every form of social organization there must be a laboring class—a class of men who get their living by the sweat of their brow; and then there must be another class that controls and directs the capital of the country."

The New York *Post* remarks of this:

"This philosophy, it will be perceived, does not restrict the owning of the laborer by the capitalist to any special class of laborers. Mr. Johnson does not speak of races at all; he does not say that the negro workman only should be the property of the white man of wealth; but he lays down a general propositon which includes all classes of laborers. There must be, he argues, in every condition of society, a class of laborers, a class that earn their bread by the sweat of their brow, and there must be a class of capitalists; but the true relation between these is not the relation which obtains in Europe and the Northern States of this Union, but the relation which obtains on the cotton and rice plantations. Capital ought to own labor everywhere, to render the services of either effective. That is the doctrine.

It will not commend Mr. Douglas to the laboring masses of the North, that his confederate entertains opinions which would reduce them to a level with slaves. The hardy fishermen of New England, who gather the richest harvests of the seas,—the mechanics of our great cities, mainly built by their hands, and the yeomanry of the Great West, who convert the soil of the prairies into the subsistence of nations, have formed other opinions of the dignity and worth of their vocations. They do not regard themselves as mere machines engaged in the task of production. They make a difference between their own labor and that of the cattle upon their farms. Labor, in their estimation, and in its true sense, is a high social function, not only with the prosperity, but with the peace and very existence of society. The great triumphs of civilization have been effected by its means, and those who perform it properly take their places in the gratitude of mankind, among the number of the world's benefactors."

For Sale or Rent.

FOR SALE OR EXCHANGE.

THE SUBSCRIBER OFFERS FOR sale or exchange 25 acres of land, one mile and a quarter west of the city. Said land is situated near Spring Avenue, and commands a most beautiful view of the city, lake and harbor, with all the shipping, &c., &c. It is handsomely timbered, and is first class soil, and therefore forms the most desirable and romantic spot for an outside residence in the entire county, and in fact the only one from which so perfect a view of the city and lake. The land will be sold very cheap. Apply to

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground, which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

THE BOBOLINK'S CAMPAIGN SONG.

BY GEORGE W. BUNGAY.

[When the bobolink migrates to the South he stops singing, changes his plumage, and is known as the rice-bird of Georgia and the Carolinas, and the ricebird of Maryland.]

When I am at the sunny South,
I dare not sing my mellow strains;
A song of freedom from my mouth
Would drown amid the din of chains,
So I think-on—think-on—think-on,
Till my visit there is spent.

So, in the clover meadows here,
I spread with joy my happy wing,
And long before another year
In the fair south land I can sing.
Now I'll drink-on—drink-on—drink-on
From the soft flower cups filled with dew;
Cousin Lincoln—Lincoln—Lincoln,
Here are my best respects to you.

May every man who feels and thinks
The time of triumph is at hand;
Repeat the songs of bobolinks,
Now ringing through our happy land.
If long Lincoln—Lincoln—Lincoln
Falls, notwithstanding my sweet strains,
I shall get, I'm "think-in"—"think-in,"
A coat of feathers for my pains.

I can be chief musician here;
Only a reed or rice bird there;
I hush my notes for half the year,
And change the plumage that I wear.
In bright fields I blink-on—blink-on;
Now I am not a plumed poltroon,
I'll vote for honest cousin Lincoln,
To take the presidential throne.

They have no bards or bobolinks
To sing for liberty divine,
In the fair land where slavery clinks
Her chains across the border line.
They will clink-on—clink-on—clink-on,
Until the Union breaks in twain,
Unless votes for Lincoln—Lincoln,
Fall like storms of summer rain.

THE WIFE.

[CONCLUDED.]

"But how are you to keep it from her? It is necessary that she should know it, that you take the steps proper to the alteration of your circumstances. You must change your style of living—nay," observing a pang to pass across his countenance, "don't let that afflict you. I am sure you have never placed your happiness in outward show—you have yet friends—warm friends, who will not think the worse of you for being less splendidly lodged; and surely it does not require a palace to be happy with Mary——" "I could live with her," he cried convulsively, "in a hovel! I could go down to poverty and the dust! I could—I could—God bless her," cried he, bursting into a transport of grief and tenderness.

"And believe me, my friend," said I, stepping up and grasping him warmly by the hand, "believe me, she can be the same with you. Ay, more, it will be a source of pride and triumph to her—it will call forth all the latent energies and fervent sympathies of her nature; for she will rejoice to prove that she loves you for herself. There is in every true woman's heart a spark of heavenly fire which lies dormant in the broad daylight of prosperity, but which kindles up and beams and blazes in the dark hours of adversity. No man knows what the wife of his bosom is—no man knows what a ministering angel she is—until he has gone with her through the fiery trials of this world."

There was something in the earnestness of my manner, and the figurative style of my language that caught the excited imagination of Leslie. I knew the auditor I had to deal with, and following up the impression I had made, I finished by persuading him to go home and unburden his heart to his wife.

I must confess, notwithstanding all I had said, I felt some little solicitude for the result. Who can calculate on the fortitude of one whose life has been a round of pleasure? Her gay spirits might revolt at the dark onward path of low humility suddenly pointed out before, and might cling to the sunny regions in which they had hitherto revelled.—Besides, ruin in fashionable life is accompanied by so much galling mortification to which in other ranks it is a stranger. In short, I could not meet Leslie the next morning without anticipation. He made the disclosure.

"And how did she bear it?"

"Like an angel! It seemed rather to be a relief to her mind, for she threw her arms around my neck and asked if this was all that lately had made me so unhappy. But poor girl," added he, "she cannot realize the change we must undergo. She has no idea of poverty but in the abstract. She has only read of it in poetry, where it is allied to love. She feels as yet no privation; she suffers no loss of accustomed conveniences or elegances. When we come practically to experience its sordid cares, its paltry wants, its petty humiliation—then will be the real trial."

"But," said I, "now that you have got over the severest feat, that of breaking it to her, the sooner you let the world into the secret the better. The disclosure may be mortifying; but then it is a single misery, and sooner, whereas you suffer it in anticipation every hour in the day."

It is not poverty so much as pretense, that harasses ruined men—the struggle between a proud mind and an empty purse, the keeping up of a hollow show that must soon come to an end. Have the courage to appear poor, and you disarm poverty of its sharpest sting. On this point I found Leslie quite prepared. He had no false pride himself, and as to his wife, she was only to conform to their altered circumstances.

Some days afterwards he called upon me in the evening. He had disposed of his dwelling house, and taken a small cottage in the country, a few miles. He had been busy all day sending out furniture. The new establishment required few articles, and those of the simplest kind. All the furniture of his residence had been sold except his wife's harp. That, he said, was too closely associated with the idea of her's, if it belonged to the little story of their loves, for some of their courtships were those when he had leaned over that instrument and listened to the melting tones of her voice. I could but smile at this instance of romantic gallantry in a doting husband.

He was now going out to the cottage where his wife had been all day superintending its arrangement. My feelings had become strongly interested in the progress of this family story, and as it was a fine evening I offered to accompany him.

He was weary with the fatigue of the day, and as he walked out, fell into a fit of gloomy musing.

"Poor Mary," at length broke with a heavy sigh, from his lips.

"And what of her?" asked I; has anything happened to her?"

"What," said he, darting an impatient glance, "is it nothing to be reduced to this paltry situation—to be caged in a miserable cottage—to be obliged to toil almost in the menial concerns of her wretched habitation?"

"Has she repined over it?"

"Repined! She has been nothing but sweetness and good humor. I have never known her more so. She has been all love, and tenderness, and comfort."

"Admirable girl!" exclaimed I. "You call yourself poor, my friend; you never was so rich—you never knew the boundless treasures of excellence you possess in that woman."

"Oh! but, friend, if the first meeting at the cottage was over, I think I could then be comfortable. But this is her first day of real experience; she has been employed all day arranging its miserable equipments—she has, for the first time, known the fatigues of domestic employment—she has, for the first time, looked around her on a home destitute of everything elegant—almost of everything convenient; and may now be sitting down, exhausted and spiritless, brooding over a prospect of future poverty."

There was a degree of probability in this picture that I could not gainsay; so we walked on in silence.

After turning from the main road up a narrow lane, so thickly shaded with forest trees as to give it a complete air of seclusion, we came in sight of the cottage. It was humble enough in its appearance for the most pastoral poet, and yet it had a pleasing rural look. A wild vine had overran one end with a profusion of foliage; a few trees threw their branches gracefully over it; and I observed several pots of flowers tastefully disposed about the door, and on the grass-plot in front. A small wicket gate opened upon a foot-path that wound through some shrubbery to the door. Just as we approached, we heard the sound of music. Leslie grasped my arm; we paused and listened. It was Mary's voice singing, in a style of almost touching simplicity, a little air of which her husband was peculiarly fond.

I felt Leslie's hand tremble on my arm. He stepped forward to hear more distinctly. His step made a noise on the gravel walk. A bright, beautiful face glanced out of the window and vanished—a light footstep was heard—and Mary came tripping forth to meet us; she was in a pretty rural dress of white; a few wild flowers were twisted in her hair; a fresh bloom was on her cheek; her whole countenance beamed with smiles—I had never seen her look so lovely.

"My dear," she cried, "I am so glad you have come! I have been waiting and watching for you; and running down the lane and looking for you. I've set out a table under a beautiful tree behind the cottage, and I have been gathering some of the most delicious strawberries, for I know you are fond of them—and we have such excellent cream—and everything is so sweet—O!" said she, putting her arm within his, and looking up so brightly into his face, "O, we shall be so happy!"

Poor Leslie was overcome. He caught her to his bosom—he folded his arms round her—he kissed her again—he could not speak, but the tears gushed into his eyes; and he has often assured me that though the world has since gone prosperously with him, and his life has indeed been a happy one, yet never has he experienced a moment of more exquisite felicity.

NEW ARRANGEMENTS.

HUNN & CROSBY,

No. 184 East Water St., Milwaukee,

Two doors north of Uncle Ben's Hat Store.

TAKE THIS OCCASION TO ANNOUNCE to their friends, and the public at large, that they have removed from their old quarters to their present location, for the purpose of obtaining more ample accommodations for their business, and to keep pace with the requirements of their trade. We have just made heavy additions to our stock, which makes ours the best assorted Family Grocery in town, and we intend to be in future, as we always have been in the past, the first in the market with every novelty of the season. We are receiving goods every week from the East, thereby always keeping our stock fresh and full. Everything pertaining to the trade can be found at our establishment, and we are prepared to sell at wholesale as well as retail, on as favorable terms as any concern in town. Teas, Sugars, Coffees, Dried Fruits, Hermetically Sealed Fruits, and every other article usually found in first-class family groceries, are sold by us, and always warranted as represented. We will sell you a better Tea for fifty cents, than you can buy anywhere else in town for seventy five, and as good a one for forty, as our windy cotemporaries, who make such a blow on TEAS, *will* or *can* sell for fifty. We mean what we say, and stand ready to verify it every hour in the day, and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

TERMS CASH.

We cordially invite our friends and customers, and the public generally, to call and see us in our new institution; and make an examination of our goods and prices. Particular attention paid to orders.

St. Nicholas Hotel,
BROADWAY,
NEW YORK.

WHEN COMPLETED, SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superb appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

SOYER'S SULTANA'S SAUCE,
For Hot and Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetizing Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known House of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite Sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.

Opinions of the London Press.

"We recommend our correspondent to try MONS. SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe, its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

It will cure SICK HEADACHE, (as thousands can testify,) IN TWENTY MINUTES, IF TWO OR THREE TEASPOONFULS ARE TAKEN at commencement of attack.

ALL WHO USE IT ARE GIVING THEIR TESTIMONY IN ITS FAVOR.

Medical.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
THE WORST SCROFULA DOWN TO A COMMON
PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH

Is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone; for want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY.

You have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you the injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.
WINCHESTER'S GENUINE PREPARATION OF THE
HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preventive with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Eyraville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. B. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptionable in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence, and devotes himself, enthusiastically to these preparations in all their variety of combination.

Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the old treatment. I am now able to ride, in attending the sick, as many miles per day as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure," is the combination proposed by Dr. Churchill "for general use," and is prepared according to his original Formula.

For sale, Wholesale and Retail, by HENRY FESS, Jr., Milwaukee, who is authorized to supply THE TRADE at New York prices.

Ayer's Cathartic Pills.

THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organ into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

The entire property will be sold at a great sacrifice, and there is a prospect of a Horse Railroad to Wauwatosa, which will and must make the property valuable and desirable. The price of the above property is twelve hundred dollars, cash down two hundred dollars, balance in yearly payments of two hundred dollars—7 per cent. interest.

MONETARY.

SATURDAY P. M., July 14th, 1860.

The week closes on a quiet and steady money market. Exchange is in plentiful supply, at the rate agreed upon by the banks last Monday, viz: 1¼ ⅌ cent premium. The offerings of commercial paper were quite liberal in the early part of the week, but during the last two days the demand for money has been comparatively moderate. Very rarely more than 10 ⅌ cent is asked for discounting anything like acceptable paper even outside the banks; and long loans can be effected with business property as collateral, at 8 ⅌ cent. The produce business is almost at a stand, but general wholesale trade is remarkably active for the season.

EXCHANGE AT CHICAGO.—The *Press & Tribune* of this morning, has the following:

The report of the bankers to-day in regard to the condition of the exchange market are not uniform. Some report it close, while others have a good supply. We quote buying rates at 1 ⅌ cent premium, though a small fraction above has been paid by some parties. Selling price 1¼, with rather more active demand.

Gold 1¼ and dull. General money market well supplied.

COMMERCIAL

SATURDAY P. M., July 14th, 1860.

There was considerably more done in the wheat market to-day, than any previous day this week, and the firmness reported at New York caused another advance of 1c. The closing sales were at $1,12 for No. 1 Spring in store; $1,13 on board; $1,10 for No. 2 in store, and $1,14@1,15 for Extra Club. The sales amounted to about 15,000 bus, mostly No. 1 on board. Receipts were only 1,324 bus, and for the week 18,737 bus.

There were no sales of flour reported, but owing to the advance in wheat, holders would not make material concessions to sell, and the tendency of the market was in no respect as favorable for buyers as yesterday.

The following statement exhibits the daily receipts of flour and grain by railroad for the past week, and also the exports of the same articles by lake for the week:

CHICAGO MARKET, JULY 13TH.—Receipts of the articles named, at Chicago, yesterday, were as follows:

Flour, bbls	514
Wheat, bus	11,349
Corn, bus	125,659
Oats, bus	5,172
Rye, bus	172

In reference to the market the *Press & Tribune* says:

The receipts of corn to-day were heavy, amounting to over 125,000 bus; and the market under this supply and discouraging news from New York became very much depressed and declined 1c. About 130,000 bus changed hands, at 46c for No. 1 Canal afloat; 45c for No. 2 Canal afloat; 43½@44½ for No. 1 in store; 43@43½ for No. 2 in store, and 41c for Rejected—the market closing heavy. Spring Wheat was scarce and firm—sales being rather limited at $1,10 for No. 1 Spring in store; $1,07@1,08 for No. 2 Spring; and 92c for Rejected. Winter Wheat was 1@2c lower, and more active, at $1,18 for No. 1 White; $1,10@1,12½c for No. 1 Red; and $1,08 for 2 Red. The propeller *Cuyahoga* was engaged to day to take several thousand bushels of new winter wheat to Buffalo—the first shipment of the season. Oats were quiet and ½c lower, with sales of No. 1 at 25½@26c in store. New Rye was sold at 50c ⅌ 60 lbs. Barley neglected. The flour market was quiet, with limited sales of Spring extra at $5,12½ and Spring superfine at $4,00. B. P. Hutchinson, Esq., received to-day a consignment of 50 bbls "Carbondale" flour, made from white winter wheat by Messrs. Sanders & Co., at Carbondale in this State. The sample shown was generally admired; and it is selling freely in small lots at $6,50. Highwines quiet at 18¼. Whitefish scarce and in good demand at at $3,50 for No. 1. Hides unchanged and rather dull. Butter steady.

Freights opened dull and rather lower; but towards the close there was more inquiry for vessels, and an advance of ¼@½c ⅌ bus was established. Two propellers and five sail vessels were engaged at 5c for new wheat to Buffalo, and 6@7c for corn.

Weekly Review of Milwaukee Produce Markets.

OFFICE OF THE DAILY SENTINEL,
Saturday, P. M., July 14th.

At the date of our last Review, the wheat market, which had been declining for the two previous weeks, had got down to $1,07 for No. 1 spring, and $1,10@1,11 for Extra. Since then the tendency has been upward, and the market closes at an advance for the week of 4@5c, the same qualities selling respectively to-day at $1,12, and $1,14@1,15. There continues to be a liberal foreign demand, and latest advices from England indicated rising markets under the combined influence of a comparatively light supply of breadstuffs on hand, and the prospects of a poor harvest. The result of this state of things abroad has been to give great firmness to American markets, and hence the improvement noted in wheat.

The closing prices of wheat in our market for each week since the beginning of the year will be seen by the following statement:

The weather here could not have been more favorable for the wheat crop, and reports to the same effect reach us from all portions of this State, Iowa, and Minnesota. There is every indication that the crop in each of these States will be the best, both in quality and quantity, that they have ever yielded.

Flour has not changed much since last week, but is rather firmer, in consequence of the improvement in wheat, at the close. Some very choice country Extra sold yesterday at $4,95@5,03, but the same brands could not be purchased to-day at these figures.

Prices of coarse grains vary very little from last week's quotations. There has been enquiry for oats yesterday and to-day at 28c delivered. Shelled corn has sold at 45c. Rye at 55c. Barley nominal. Wool has ranged from 25 to 45c for unwashed native to choice full blood merino fleece.

The principal transactions of the week in the produce market will be found below:

FLOUR—Receipts by Railroad for the week only 1,076 bbls. Milwaukee Lumber Market.

(FOR WEEK ENDING JULY 14TH, 1860.)

The receipts of lumber, shingles, and lath, for the week, as compared with last week, are as follows:

	This week.	Last week.	For the season.
Lumber, feet	1,043,000	1,130,000	15,293,000
Shingles	854,000	415,000	7,574,000
Lath, ft	32,000	248,000	1,013,000

Receipts thus far at this port are largely in excess of last year, and bid fair to continue so till the close of navigation. Most of the lumber now arriving is sold to country dealers. Trade from the yards at this time of the year is always dull, and the week just closed has been no exception to the general rule.

But four cargoes have been on the market this week, and these have brought from $5 to $6. City dealers as a general thing, have full stocks, and there is little or no competition for cargoes. Shingles bring $1,75 for best warranted, and lath $1,75 ⅌ M feet.

Messrs. HOUGHTON BROS., lumber dealers, corner of Third and Tamarack streets, to whom we are indebted for a great many favors in the way of information respecting the trade, have furnished us with the following list of yard prices:
